My job is to
SAVE LIVES.

THIS TABLET'S JOB IS TO SAVE TIME.

It's also a great companion for your sales force to share research with doctors face-to-face and gather feedback instantly.

No one likes to hear about medical errors — least of all, those dedicated to helping others get well. Thankfully, the ThinkPad X41 Tablet makes collecting patient information simple, by instantly digitizing forms and doctors' notes. That way, transcription errors have less chance of affecting treatment. Plus, the integrated security helps keep patient data private.

INSURANCE

NOT FROM THE OFFICE.**

You can even upload photos from your digital camera. And with Web access, you're sure you have the latest information for your assessment. Add a portable printer and you can issue a check on the spot.
